Thanks Pam

As a reply to Dr Keegan-Henry, we can say that we have kept an open mind regarding whether an improved, future BH would be on the present site or started all over at a different site. We've heard ideas and submissions from both points of view. Ultimately, we are an idea and information gathering committee, not a decision making body.

The FHA Master Plan Committee has also kept an open mind on the issue of site. As I understand it, the present feeling is that there is too much (several hundred million dollars worth) of valuable/useable infrastructure at that the present site. It doesn't make sense to walk away from all of that unless proven otherwise as the planning goes along.  
Hope that helps

David

Hello

I thought I'd give everyone a quick update and what I perceive the next three weeks to look like. As always please feel free to comment or correct me if you don't think I'm going in the correct direction.

Good news. I heard from Vern Milani (committee member & Foundation Board Member) and some members of the Foundation would like to get together with some committee members to participate and learn more about our project. Two of these people are the Executive Director and Site Director of BH. That was a very positive move when the Foundation chose to terminate Cheryl Boseley. Vern and I have decided to have this meeting at his office and the following committee members in attendance are Vern, Ross, Dave, Thomas, and I. Thomas emailed me asking to attend and I had no problem with that at all as the goal is to get him to engage as much as possible. As always Harry you are invited as you are our leader!!!

When I spoke with Margaret and Lindsay last week I'd suggested I'd ask for an extension, but on further thought we can just have this mtg in private and submit the notes to Jennifer. As there are so many people watching us on facebook and twitter I don't want any questions asked why are we asking for an extension.

As a review the report will be written by Sonya Sanguinetti, a retired lawyer and former President of the BC Liberal Party. I have connected Jennifer up with Sonya and they will start getting this epistle done. My plan is to have this in the Minister's office by the latest Friday October 19th. I have chosen this date because I need it to be completed by the time I see Christy at the conference. I have experienced that wrath a time or two in the last 40 years!!! I will have to confirm this deadline with Sonya, but she knows the importance of this.

If you've been watching the facebook page you will see a well written submission from Kathy Corrigan's sister stating she'd like the site moved to Willingdon. Do we want someone to write a similar letter stating there are big problems with that?

When I reflect back on this project I really shake my head that both Dix and Corrigan have not chosen to participate. I'm obviously very pleased as politically it's a great piece for you people I just question their forethought. Both of them are in riding where their constituents use the hospital.

I'm know going to finish colouring the cover page of this report. P

I have deleted the comment and requested that she resubmit without employees names. Thank you for the alert. Pam and Patrick both have Administrator privileges so you can also go in and delete comments. Just happens I am in Vancouver today.

Jim

Absolutely we need to take out the nurses name - If this means removing the whole post - do it  
If so, can we add a post that refers to this post, naming nurses at Bby H and that we will not allow this on our site - If the poster wishes to pre post without using names or derogatory language, then we will allow that post to stay up - Or something like this....

B

Burnaby Hospital - Doug Evans

September 25, 2012 10:20 AM

**Senior care at Burnaby Hospital slammed**

RED FM - 8am News

- Family of a former Burnaby councillor is slamming the Fraser Health Authority for bad treatment of Douglas Evans at Burnaby Hospital.
- The family has found Douglas Evans in soiled diaper, chained to his bed and under the influence of an anti psychotic drug during a recent visit to the hospital.
- Evan was member of Burnaby Hospital board in 1990.
- The hospital management says a patient must be in stable condition before shifting to a long term care centre.
- MLA Raj Chouhan has also criticised the hospital for this negligence.

**PROGRAM ENDS:**

News updates every hour on the hour

**RECOMMENDATION:**

Alert Fraser Health Authority to check for accuracy and respond.

Subject: BHCCC Update

Hi

It's been a couple weeks since I've been in contact so I thought I'd give an update. Firstly Harry would you be interested in writing a couple paragraphs with your comments about being the chair of the committee? Both Dave Jones and I have done one thanking the committee, the sponsors, and the public at large and as you are our chair your comments would go right after the title page.

Sonja is thinking she'll have the report done by mid week next week. She said she's gone through all the reports info etc and said the report will state the speakers have commented on a need for a new building but a major theme has been the lack of resources and how BH has been the worse resourced hospital in Fraser Health. She feels this isn't a reflection on the Liberal government but more on the Chair of Fraser Health. The government hires someone and has to trust they will do an equitable job. It's not the Liberals that force and continue to allow the citizens of Burnaby to suffer.

Once I get it from Sonja should I send it to you people first? The committee has asked to see the report before it goes to the Minister of Health. I continue to get emails from both the media and the BCNU to see the report but both my comment and Dave Jones comment is that it will go to the Minister and she will decide what to do with it. I am also assuming she'll decide if it goes to FHA.

Please give me your comments. P
